LIST OF PAPERS

Opening Addresses

The Balkan Region Centre for Engineering Education: a satellite centre of the UNESCO International Centre for Engineering Education C. Oprean, Rector, C. V. Kiför, N. Georgescu, Lucian Blaga University of Sibiu, Sibiu, Romania

International collaborative programmes and systems

Peculiarities related to the usage of web based platforms during different semesters. V. Videkov, R. Radonov, Technical University of Sofia, Sofia, Bulgaria.

From a French-Romanian Master to a European Research-Master with double license. M. Abrudeanu* & A. Gleizes**, *University of Piteşti, Piteşti, Romania, **Institut National Polytechnique de Toulouse, Toulouse, France.

The Master in Problem-based Learning in Engineering an international Socrates - Erasmus programme. C. Oprean*, A. Kolmos**, C. V. Kiför*, L. Lobont*, Lucian Blaga University of Sibiu, Sibiu, Romania, **Aalborg University, Aalborg, Denmark

Competencies in virtual collaboration applied for students' online project management under industry conditions - the case of POOL. M. Giurgiu, Technical University of Cluj-Napoca, Cluj-Napoca, Romania

SMECTRA++ - An European network for online counselling on the application of new media in enterprise training. M. Giurgiu*, D. Treichel**, Technical University of Cluj-Napoca, Cluj-Napoca, Romania, **Overpar Solutions Ltd, Liechtenstein

Case - studies

Possibilities for self-development of teaching staff in the context of university (Tallinn University's example). B. Kuldvee, I. Teiter, Tallinn University, Tallinn, Estonia.

About manganese steel machinability and new machining technologies applicable. S. Rusu*, S. Hidos**, *Technical University of Civil Engineering Bucharest, **Girueta SA Bucharest, Romania.

Higher education research for engineering education in Romania. C. Scarlat & A.A. Purcarea, University "Politehnica" of Bucharest, Bucharest, Romania.

The student career office and the business society of Sibiu. I. Bondrea, "Lucian Blaga" University of Sibiu, Sibiu, Romania.

Knowledge representation models based on conceptual graphs in intelligent educational systems. D. Stefanescu, E. Pecheanu, L. Dumitriu, University "Dunarea de Jos" of Galati, Galati, Romania.

The initial training schemes for engineers between Romanian industrial reality and European education system. R. Ionescu, "Stefan cel Mare" University, Suceava, Romania.

Quality issues, innovation and alternatives in engineering education

Need for radical innovation to ensure high quality, of continuous education in engineering. S. Brad, Technical University of Cluj-Napoca, Cluj-Napoca, Romania.

Assessing service quality in higher education. B. Rusu, N. Oniciuc, "Gh. Asachi" Technical University of Iasi, Iasi, Romania.

Assessing the factors that influence high-school graduates in their choice of a faculty. R. Săvescu, M. Rotaru, Lucian Blaga University of Sibiu, Sibiu, Romania.

Determining the opinion of final grade high-school students about higher education in general. R. Săvescu, M. Rotaru, Lucian Blaga University of Sibiu, Sibiu, Romania.

Comparative study on some quality indicators from Romania and euroatlantic high education. A. Olteanu, Lucian Blaga University of Sibiu, Sibiu, Romania.

The impact of using the immobilization techniques to leading the fermentative processes in training the technological engineers of food industry. O. Tiţa, Lucian Blaga University of Sibiu, Sibiu, Romania.

The impact of the usage of the membrane techniques when treating the water in the food industry and the role played in training the specialists engineers. O. Tiţa, Lucian Blaga University of Sibiu, Sibiu, Romania.
Quality Assurance in Technological Education Institute. G. Kabouridis*, G. Kakarelidis*, P. Sypsas**, *Technological Educational Institute of Patras, **University of Patras, Patras, Greece
What do we teach and what is required from a graduate, for a better chance on the labour market? What should a Biomedical Engineer know, at least? M. Tarata*, D. F. Tarata**, *University of Medicine and Pharmacy of Craiova, **University of Craiova, Craiova, Romania
Strategies of human resources development in Taiwan’s high tech trade. D. W. S. Tai, R. Wang, National Changhua University of Education, Chunghua, Taiwan
"Breakthrough into Performance: " Toward a New Understanding of Technical and Professional Communication across the Engineering Curriculum at Cornell University. R. Evans, J. Gabriel, Cornell University, Ithaca, New York, USA

Innovation and best practice in engineering education

Best practices in partnerships between universities and business environment - case study of Technical University of Iasi (CETEX). N. Oniclie, “Gh. Asachi” Technical University of Iasi, Iasi, Romania.
Biosystems engineering education in the biomedical field. D. Mandru, V. Ros, Technical University of Cluj-Napoca, Cluj-Napoca, Romania.
The design component in engineering curriculum. A. Aran, Istanbul Technical University, Istanbul, Turkey.
Advanced engineering knowledge transfer in the virtual environment. C. Ispas, C. Mohora, T. Clionanu, D. Anania, University Politehnica of Bucharest, Bucharest, Romania.
Consideration regarding the stimulation of creativity in forming specialists. C. Ispas, C. Mohora, D. Clionanu, D. Tillina, University Politehnica of Bucharest, Bucharest, Romania.

Plenary session 3

Application of E-learning specifications for creating learner model ontology in Web-based educational systems. D. Milosevic, M. Brkovic, University of Kragujevac, Cacak, Serbia and Montenegro.
Tools for entrepreneurial skills development in continuing education center - CETEX, IASI, Romania. C. Rusu, ”Gh. Asachi” Technical University of Iasi, Iasi, Romania.

Multimedia in engineering education

Implementation of E-Learning specifications for creating web based learning content. B. Mirjana, D. Milosevic, University of Kragujevac, Cacak, Serbia and Montenegro.
Web-enabled simulation in maritime engineering education and training. L. Chitoci, Maritime University of Constanta, Constanta, Romania.
The importance of educational factor to assure the safe and security on the sea. M. Jurian*, V. Panaitescu**, M. Panaitescu***, D. Samata ***, *University of Pitesti, Pitesti, Romania, **Maritime University of Constanta, Constanta, Romania, ***Romanian Satellite Network.
Didactic methodology to producing multimedia materials for e-learning Electrotechnics Course. A. Adascalitel, C. Dumitrescu**, **Gh. Asachi” Technical University of Iasi, Iasi, Romania, **Maritime University of Constanta, Constanta, Romania.
Requirements and Steps in Achieving Computer Aided Education. C. Dumitrescu, Maritime University of Constanta, Constanta, Romania.
Modelling aspects of semantic Web-based E-Learning System. S. Buraga*, M. Ciocşa**, **Alexandru Ioan Cuza” University of Iasi, Iasi, Romania, **Lucian Blaga” University of Sibiu, Sibiu, Romania.
Improving 3D visualization skills using solid modelling software. A. Kiraly, Technical University of Cluj-Napoca, Cluj-Napoca, Romania.
The right preparation of engineering students in engineering graphics. A. Kiraly, Technical University of Cluj-Napoca, Cluj-Napoca, Romania.

Crystale - crystallization virtual learning environment. I. D. Mironescu, V. Mironescu, "Lucian Blaga" University of Sibiu, Sibiu, Romania.

The tutorial for learning programming language. S. Borza, C. Simion, "Lucian Blaga" University of Sibiu, Sibiu, Romania.

The tutorial for learning Microsoft Office software. S. Borza, C. Simion, "Lucian Blaga" University of Sibiu, Sibiu, Romania.

Modelling processes in HEIs. C. V. Kifor, R. Volovici, D. Volovici, Lucian Blaga University of Sibiu, Sibiu, Romania.

Social and philosophical aspects of engineering

Improving the students’ business communicating skills in engineering education. C. Denes, "Lucian Blaga" University of Sibiu, Sibiu, Romania.

The engineering educator and sustainable development. C. Opresan, M. A. Vanu, "Lucian Blaga" University of Sibiu, Sibiu, Romania.

Research of the interpersonal relations: use of a computerised test. M. Milcu, "Lucian Blaga" University of Sibiu, Sibiu, Romania.

Estimations regarding the evolution of the workforce of the Romanian engineering graduates. M. Tuturea, D. Dumitrascu, "Lucian Blaga" University of Sibiu, Sibiu, Romania.

Some aspects regarding the assessment of the teaching activity at the Faculty of Engineering from Lucian Blaga University of Sibiu. M. Tuturea, D. Dumitrascu, M. Rotaru, "Lucian Blaga" University of Sibiu, Sibiu, Romania.

A group rule of the parameters which maintain the equilibrium between conscious, unconscious and subconscious. A. G. Sumedrea, "Lucian Blaga" University of Sibiu, Sibiu, Romania.

A point of view about the human tensional state. An approach in terms of network. A. G. Sumedrea, "Lucian Blaga" University of Sibiu, Sibiu, Romania.

Student professional collectives formed by aptitude and affinity. C. Isarie, I. Isarie, "Lucian Blaga" University of Sibiu, Sibiu, Romania.
